3.County Board: Scott-Zoning meeting, discussed new camping regulations and zoning laws. It will potentially also effect "party" houses. Zoning meeting is 9/2, Spot Zoning when a commercial property on a 1/2 acre of land between residential properties, sometimes the residents are not notified, some become upset. Not illegal but can cause problems. County zoning kicks it to the county Board and it goes back and forth. Zoning agenda is published in meeting notices. Transportation on 9/7. Parcels were put up for sale by the County to return them to the tax roll. Most are small parcels, but there is a 42-acre parcel for sale off Becks Road (not in Lakeside), it has a \$500,000-\$600,000 value. 8/3 Transportation meeting discussed 2023 bridge aid, the SVL remaining aid is still there, still waiting on the final bill from the state, we should owe \$3,000-\$4,000. Going to start working on FF in September as well as patching on H. The county highway department is still short staffed. Burnett county even called and asked if we had any workers they could borrow.

4.Town Board Report: Everyone needs to make sure they push the hall door shut when they leave, door has been open on multiple occasions, especially after any Tuesday night meetings.

Department and Committee reports

10.Fire Department: No representation

11.Town Employees and roads: Mark-grading and hauling gravel, brusher is down, no idea on timeframe. They ordered the plow for the new pickup; all other equipment seems to be working fine. Gravel budget is currently at \$34,000. 5 new garbage bins, people were having trouble with the stairs as well as less liability for the town, should also save the town money. The Conservancy sign was placed.

12.Building permits:

a) Nichols-Gerald handling and he was absent

b) Johnson permit-no one attended

c) Joki Road- issues with replacing the housing stuff and destruction of the road. Looking to see if more gravel needs to be placed, also anyone bidding on the job should figure in a gravel cost for placing on the road.

Scott also mentioned Pukema road is going to be an issue on both sides, depending on how the river flows. Also losing ground on River Road as the flow changes.
